

ISA VIT Pune Student Section

Brief description/Introduction: The International Society of Automation (ISA) Vishwakarma Institute of Technology (VIT) Chapter is an active student organization that organizes several technical activities including but not limited to workshops, competitions, and technical expertise lectures for its student members. Under the guidance of the Department of Instrumentation Engineering VIT, the student chapter has 74 active members and is run by a student council and faculty advisor from the department. The ISA VIT Chapter allows students to learn and grow in the field of instrumentation.

Objective: ISA is dedicated to giving students access to practical learning experiences and democratizing information. To provide students with the necessary skills and views for their future jobs, we are committed to removing obstacles in education and enabling their participation in industry projects. Our core values are knowledge dissemination and experience learning, to enable the next generation of workforce.

Vision: To foster a vibrant community of instrumentation enthusiasts empowered with practical skills and knowledge, driving innovation and excellence in the field.

Mission: The ISA VIT Chapter strives to democratize access to practical learning experiences in instrumentation engineering, equipping students with the requisite skills and perspectives for their future careers. We are committed to removing barriers to education and facilitating students' participation in industry projects, guided by our core values of knowledge dissemination and experiential learning.
