Individual Event Reports (Copy paste the same table and add to the report if number of events is more than 1)

Event 1

Name of the event:	Auotomation Expo
Dates of event:	25 August 2023
Online Platform/ Venue:	BEC, Mumbai
Event span (hours/days)	
Footfall/Total attendance	
Name and contact of the key organiser(s)	
No. of people involved in the organising committee (all levels of hierarchy included, Core team to Volunteers)	98
Objective of the event	The event saw companies from across India coming together to showcase their cutting-edge products, all with the primary aim of connecting with potential new customers. The domains covered were extensive, spanning from IoT and Process Automation to Robotics, Control Systems, and Testing & Measurement.
Brief description of the said event	The event saw companies from across India coming together to showcase their cutting-edge products, all with the primary aim of connecting with potential new customers. The domains covered were extensive, spanning from IoT and Process Automation to Robotics, Control Systems, and Testing & Measurement.
Key event outcomes	The event offered us a unique opportunity to witness firsthand the practical application of the concepts we've been studying in theory.
Milestones set by the event (if any)	
Name and bio of chief guest along with social media links (if any)	

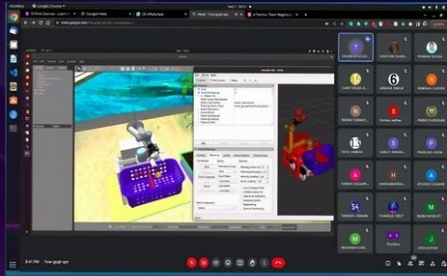

Event 2

Name of the event:	Auotomation Nexus
Dates of event:	September 1-6 2023
Online Platform/ Venue:	Google Meet, College
Event span (hours/days)	6 days
Footfall/Total attendance	
Name and contact of the key organiser(s)	
No. of people involved in the organising committee (all levels of hierarchy included, Core team to Volunteers)	98
Objective of the event	To make knowledge accessible and provide students with real-world learning experiences. We're committed to removing obstacles to education and giving students the chance to work on industry projects. This helps them gain skills and knowledge they can use in their future careers. Our focus on sharing knowledge and hands-on learning is at the core of what we do, as we aim to empower the next generation of professionals.
Brief description of the said event	The Automation Nexus workshop hosted by the ISA VIT Pune student section was a dynamic event delving into the integration of automation technologies across industries. Attendees engaged in discussions on cutting-edge automation tools explored case studies and gained actionable insights into leveraging automation for enhanced efficiency and productivity.
Key event outcomes	The fusion of industrial and technical expertise equips individuals with a versatile skill set, empowering them to address industry-specific issues with technical proficiency

AUTOMATION NEXUS: UNVEILING THE FUTURE OF AUTOMATION

DAY 1 WORKSHOP

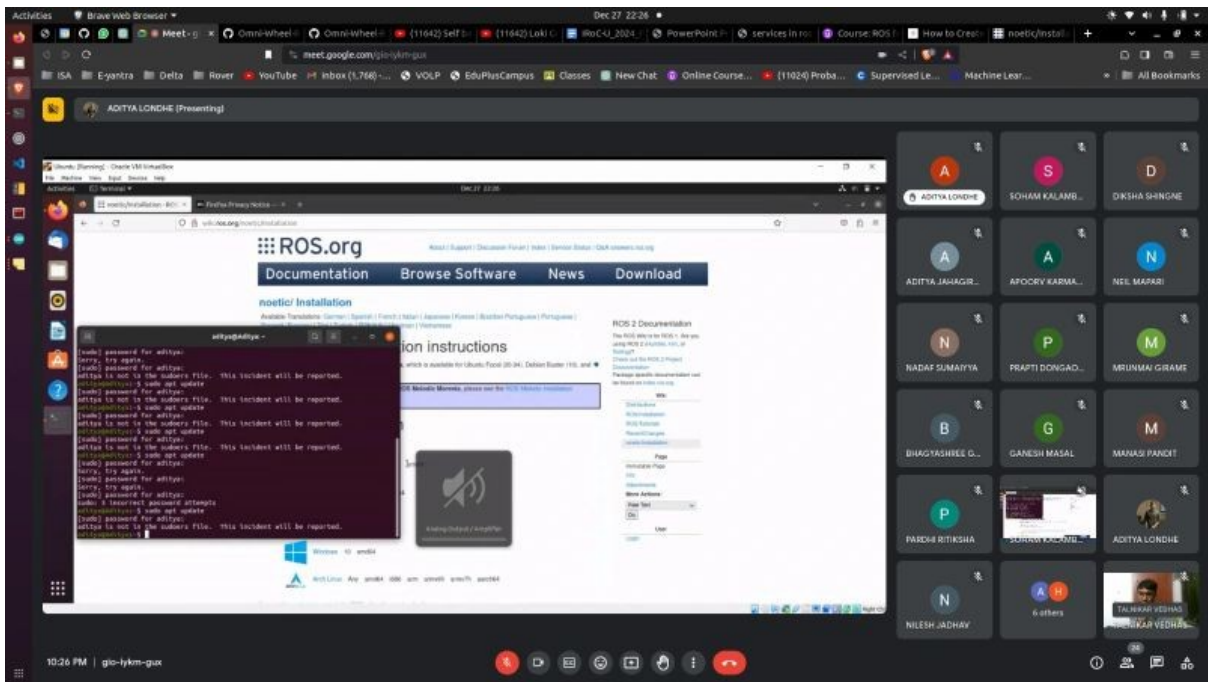

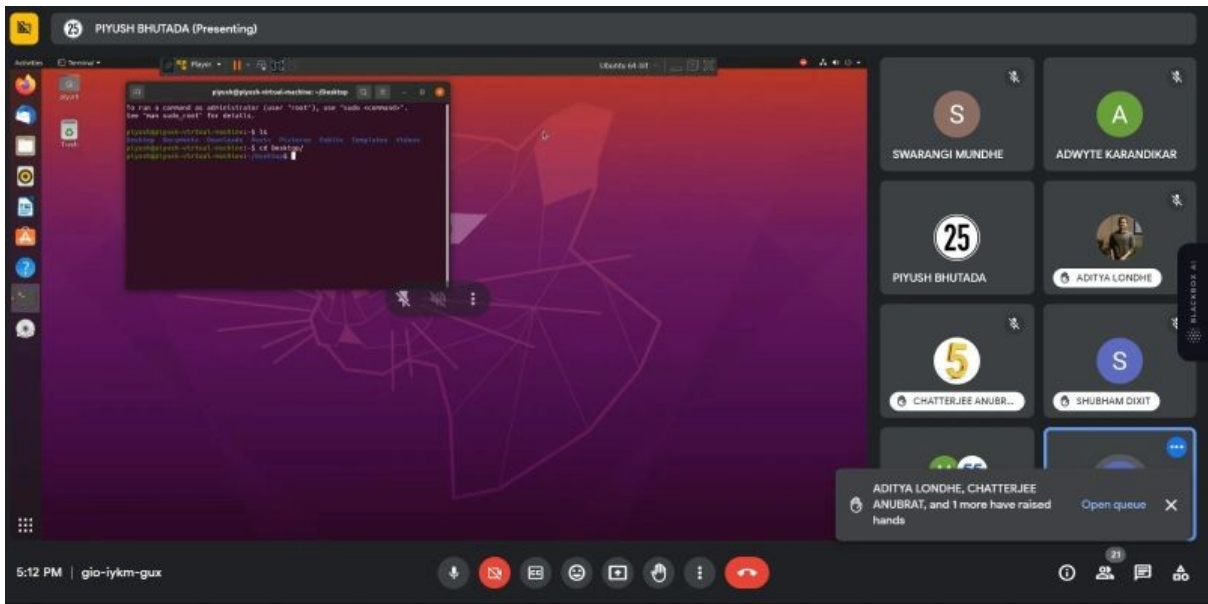

DAY 4 WORKSHOP

The image displays two screenshots from a Zoom meeting. The top screenshot shows a presentation slide titled "Live Training" with the subtitle "Automated Optical Inspection". The slide features two side-by-side images of a green printed circuit board (PCB) with white components, illustrating the inspection process. The bottom screenshot shows a terminal window titled "Resuming Training" with a dark background and white text. The terminal output includes the following information:

```
2023-07-14 14:00:00.000 [INFO] Starting training...

Event 3

Name of the event:	ROS Sessions
Dates of event:	Jan 1-4 2024
Online Platform/ Venue:	Google Meet
Event span (hours/days)	4 days
Footfall/Total attendance	
Name and contact of the key organiser(s)	
No. of people involved in the organising committee (all levels of hierarchy included, Core team to Volunteers)	98
Objective of the event	To make knowledge accessible and provide students with real-world learning experiences. We're committed to removing obstacles to education and giving students the chance to work on industry projects. This helps them gain skills and knowledge they can use in their future careers. Our focus on sharing knowledge and hands-on learning is at the core of what we do, as we aim to empower the next generation of professionals.
Brief description of the said event	The ROS workshop organized by the ISA VIT Pune student section was an immersive dive into the Robot Operating System (ROS), offering hands-on experience and practical insights into robotics development. Participants explored ROS fundamentals, honed their skills through interactive sessions, and gained valuable knowledge to apply to robotics projects.
Key event outcomes	This hands-on ROS project through ISA VIT Pune gave members experience in applying ROS to control a virtual robot.

Event 4

Name of the event:	Ingenious 2024
Dates of event:	5 March 2024 - Present
Online Platform/ Venue:	
Event span (hours/days)	80 days
Footfall/Total attendance	
Name and contact of the key organiser(s)	
No. of people involved in the organising committee (all levels of hierarchy included, Core team to Volunteers)	98
Objective of the event	Launching industry-endorsed projects, fostering relationships, providing mentorship, and organizing events are the top priorities of the new core ISA team. Our goal is to provide new members with real-world, experiential learning opportunities and beneficial industry connections to improve their employment opportunities
Brief description of the said event	Ingenious 2024 provides a unique opportunity for emerging innovators to collaborate with industry leaders. From the call to action to the Battle of Builds, participants showcase their skills and tackle real-world challenges. With industry mentors evaluating top teams for sponsored projects, the event fosters practical problem-solving. Project Zenith focuses on product development, supported by corporate sponsorship, offering internship opportunities for career advancement.
Key event outcomes	ISA will be providing internship opportunities through the event Ingenious 2024. Participants can receive LORs, research papers and patents. Combining practical industry knowledge with technical proficiency provides individuals with a versatile set of tools to address industry-specific challenges using

	their technical expertise.
